WELCOME

We are pleased to welcome you as a network provider in the South Florida Community Care Network (SFCCN) Provider Service Network (PSN). The South Florida Community Care Network is a partnership formed by the Public Health Trust of Miami-Dade County, the North Broward Hospital District (Broward Health), and the Memorial Healthcare System (South Broward Hospital District) under the Florida Cooperation Act of 1969, F.S. 163.01. Throughout this manual these three health systems will be referred to as “Subnetworks” of the SFCCN.

SFCCN has entered into a contract with the State of Florida Agency for Health Care Administration to provide Medicaid services to eligible Medicaid beneficiaries as a Provider Service Network (PSN). Since 1970, Florida Medicaid has provided healthcare coverage for income-eligible children, seniors, disabled adults and pregnant women. It is funded by both the state and federal governments. You have chosen to become a provider of this very unique network. Together we will work with you as a team, bringing our individual expertise to achieve the high standards our community expects. The SFCCN’s Provider Service Network (PSN) is a Reform PSN in Broward County, and a non-Reform PSN in Miami-Dade County. Therefore, in Broward County, the North Broward Hospital District and Memorial Healthcare System are contracted as a Reform PSN, and will provide services required as such. Medicaid Reform is a demonstration pilot that began in July 2006.

You have committed to delivering quality medical care to SFCCN enrollees. This provider manual answers many of your questions about the SFCCN and how it works. Outlined in your Provider Manual are the policies, procedures, and programs you have agreed to comply with, as presented in the Provider Services Agreement between you and the South Florida Community Care Network. We are requesting your expertise to ensure that the care provided to the enrollees meets the performance standards and indicators as outlined in your manual. Please review this material to better understand the importance of your role in the provision of services to SFCCN enrollees and compliance with designated program requirements.

A quick reference phone contact list is on the next page for your convenience. We urge you to call your Provider Relations representative if you have any questions or wish further information about the program or policies contained in this manual. Please note that this manual and its contents are subject to change. We will make every effort to inform you of significant changes in our policies and procedures through newsletters and bulletins.

You are a key part in the continuing success of this first Medicaid Provider Service Network in the State of Florida. We look forward to a very rewarding business relationship.

Thank you,

South Florida Community Care Network

Primary Care Case Management Services	Broward and Dade
Rural Health Clinic Services	Broward and Dade
Therapy Services – Physical, Occupational, Respiratory & Speech	Broward and Dade
Transplant Services	Broward and Dade
Transportation Services	Broward only

Child Health Check-Up Services & Immunizations: A child health checkup is a routine health screening evaluation of children ages 20 and under that includes a health and developmental history; hearing, vision and dental screening; updating of routine immunizations; and referrals for further diagnosis and treatment as needed. Immunizations can be received at no charge through provider participation in the Vaccines for Children Program (for more information, call 1-800-483-2543 or go to http://www.doh.state.fl.us/DISEASE_CTRL/immune/vfc/index.html). Providers are encouraged to assist enrollees in the timely provision of these services as required by the State of Florida periodicity schedule.

Maternity Care:

All pregnant enrollees will be offered a choice of a participating obstetrical doctor or nurse midwife for prenatal care and delivery of the newborn. All women of childbearing age will be offered counseling, testing, and treatment of blood-borne diseases that may affect them or their

unborn child. Enrollee participation in Maternal/Child Case Management will assist a pregnant enrollee in obtaining all the services she needs to have a healthy pregnancy.

Emergency Care:

Emergency Services are those necessary to treat a condition, illness, or injury, which requires immediate attention. Enrollees should not be sent to the emergency room for the following conditions: routine follow-up care; follow-up for suture or staple removal and non-emergent care during normal business hours.

Hospital:

Hospital Inpatient Care includes all inpatient services authorized by the SFCCN: room and board, nursing care, medical supplies, diagnostic and therapeutic services. There is an annual (Medicaid fiscal year) forty-five (45) day cap on inpatient care, pursuant to Medicaid Benefits. Hospital Outpatient Care includes all diagnostic and therapeutic services provided as an outpatient at a participating hospital or outpatient facility by a participating specialist. Pursuant to Medicaid Benefits there is a \$1,500.00 per (Medicaid) fiscal year cap on outpatient services for adults only.

Behavioral Health:

For mental health and substance abuse services the current Medicaid benefits apply. SFCCN enrollees will have behavioral health services managed by University of Miami Behavioral Health (UMBH).

Hearing and Vision Care Services:

Hearing services include hearing evaluation, diagnostic testing and fitting of a hearing aid (one hearing aid every three years). Other hearing services may include cochlear implant services and newborn hearing screening. Vision services allowed by Medicaid include eyeglasses, eyeglass repairs as required, prosthetic eyes, and contact lenses for eligible enrollees. Medicaid allows for two pair of glasses per enrollee per year.

Family Planning:

The purpose of family planning services is to allow enrollees to make informed decisions about family size and/or spacing of births. Family planning services offered include information and referral, education and counseling, diagnostic testing, contraceptives and follow up care.

Non-Emergency Transportation:

SFCCN Reform (Broward County only) enrollees will have access to Non-Emergency Medical Transportation Services through the SFCCN's PSN transportation vendor, LogistiCare. Reform enrollees can access these services without a co-pay. To coordinate non-emergency medical transportation for SFCCN Enrollees in Broward County, contact LogistiCare at 1-866-306-9358. Transportation in Miami-Dade County is not managed by SFCCN. SFCCN-PHT enrollees can call 1-866-726-1457 to access Medicaid Non-Emergency Medical Transportation Services.

Dental Services:

SFCCN enrollees under the age of 21 are eligible to receive services as designated in the Florida Medicaid Dental Services Coverage and Limitations Handbook, which may include: partial and complete dentures, diagnostic exams, endodontics/periodontal treatment, oral surgery, orthodontic treatment, preventive services, medically appropriate radiographs (necessary to make a diagnosis), and restorations. Adult enrollees may receive services for acute emergencies to alleviate pain and/or infection, denture, and denture-related procedures, which may include the following: complete and removable partial dentures, comprehensive oral exam, denture-related

procedures, extractions, incision and drainage of an abscess, necessary radiographs to make a diagnosis, problem-focused oral exams, and surgical procedures essential to the preparation of the mouth for dentures. SFCCN manages dental services in Broward County (Reform enrollees only). SFCCN enrollees in Miami-Dade County may receive dental services via regular fee-for-service Medicaid.

Prescribed Drug Services:

Prescribed drug services can be obtained at any Medicaid participating pharmacy. To determine what medications are covered, the Preferred Drug List can be accessed at http://www.ahca.myflorida.com/Medicaid/Prescribed_Drug/pharm_thera/fmpdl.shtml.
