

UMBH UNIVERSITY OF MIAMI BEHAVIORAL HEALTH

1320 South Dixie Highway Suite 400 Coral Gables, Florida 33146 • 305-243-7270 • 305-243-7299 Fax

Dear SFCCN Provider:

University of Miami Behavioral Health (UMBH) is the managed behavioral health care organization that manages the behavioral health benefits for the South Florida Community Care Network (SFCCN) in Broward County. As a SFCCN partner UMBH is committed to providing enrollees with the assistance, guidance, information and resources that they need to successfully address any behavioral health issues.

We would like to offer our assistance in screening and providing assistance to the SFCCN patients you care for, who may be at risk or are showing early signs and symptoms of any behavioral health conditions. UMBH has a case management team comprised of licensed master's level practitioners that can guide your patients to the necessary resources and support. We have included with this letter an informational pamphlet that you can provide to the SFCCN patients you identify as requiring a referral to a behavioral health practitioner. UMBH also has a highly experienced Medical Management team comprised of board certified, highly experience psychiatrists who are faculty of the University of Miami and are available to you for consultation on those SFCCN patients that require extensive coordination due to high risk co-morbid conditions that include behavioral health concerns.

UMBH has a network of over 1000 behavioral health providers including psychiatrists, psychologists, psychotherapists, community mental health centers, treatment programs, and acute care facilities. If you have any questions regarding this outreach letter or if we can help you or your patient with behavioral health resources and referrals please do not hesitate to contact UMBH. Our telephone number is 1-800-294-8642 or 305-243-7270, option 2 and option 2.

Sincerely,

Claudia Lamazares, M.S.Ed., LMHC, MBA
Director of Clinical Operations
University of Miami Behavioral Health
Miller School of Medicine, University of Miami
